WOODYISMS....February is in the rearview mirror and we've got March ahead of us. March is a month of new beginnings, from the
<<https://www.countryliving.com/life/a26845009/what-is-the-spring-equinox/>>
beginning of Spring to Daylight Savings Time. It's a month bursting with change as Mother Nature begins to bloom and show off her colors after a season of chilling out (literally). As we enter this new season, it's the time to celebrate, right?

NOT SO FAST SEZ WOODY The 2022 Budget versus actuals report does not have any indicators of significant variance at this point, but I must point out that at this point we have eight members who have not paid their 2022 dues as of this report. If these members have left the organization we can expect a negative variance in dues income of \$160.00 by the end of the calendar year. Maintaining our current membership and if possible bringing in new members is required if we want to organization to continue.
